# IT infrastructure that...

**Doesn't require capital expenditure**

**Doesn't get out of date**

**Doesn't need you to manage it**

**Doesn't need you to back it up**

**Means that you are not vulnerable to the loss of important data because of the theft**

**Can be deployed quickly and easily**

**Is charged on a per user basis**

**Can grow or shrink as your company develops**

**Is available whenever and wherever you need it**

**Guards your data by 24 hour security & biometric controls**

**Protects your servers from fire, flood and power failure**

## Connect & pay only for what you use

**With Key's hosted Windows desktop you can have access to the latest Microsoft Office programs (and more) wherever you are, with the peace of mind that your data is stored securely.**

**We can also load other applications that you use, such as accounting or CRM applications, so that each user has access to the tools that they need and we will manage and upgrade those applications on your behalf.**

## ...Total business solutions at your fingertips
